

## Professional Services

Azaleos opened as a niche group of experts hired directly from Microsoft's product teams. Our Professional Services build value around Exchange, SharePoint, Active Directory and Office Communication Server- from scalable architecture and deployments to health checks, migrations and archival. We've migrated over 2,000,000 mailboxes to Microsoft Exchange. As a National Systems Integrator (NSI), we are one of Microsoft's Top 35 Partners in the United States.

### Why Azaleos?

Customers choose Azaleos Professional Services for:

- Subject-matter expertise: Professional Services consultant working on your project likely worked on the team that designed that technology (Active Directory, Exchange, SharePoint, OCS)
- Proven Process: efficiency and expertise saves time and money
- Flexible technology toolsets for migration, deployment and archival
- Impact of project: why risk business continuity and end-user happiness on an unproven provider?

### Key Technical Partnerships and Certifications

Azaleos Professional Services leverages key technical partnerships and certifications to ensure the highest levels of expertise and service.

### Azaleos Professional Services Customer Feedback

#### Robert Mays, Director of Global Infrastructure

"Thanks Azaleos team for all your hard work and effort. We have made a great stride in building Terex into a world class environment, and we could not have done this without your guidance and expertise."

#### Linda Gardner, Director of IT

"From the beginning Azaleos was clear on how they worked, where they provided value and what process would look like. Our Azaleos consultant was a great listener and communicator. I'd use Azaleos again."

#### Ira Greenfield, VP of IT

"Azaleos's methodology enabled the migration team to effectively plan mailbox and data moves in concert with the ESH business teams and minimize downtime to end users."
